updates on how you can trade smarter
and earn more.

Imagine having a professional trader by your side at all times—every trade, every move, mirrored in your account with precision. With Deriv cTrader's copy trading, that's exactly what you get. No endless chart analysis, no stress over stop losses. Just smart, streamlined trading.

Key benefits

Real-time replication

Automatically mirror top traders' moves as they happen.

Simplified trading

Focus on refining your strategy instead of getting bogged down by analysis.

Monetize your expertise

Skilled traders can share strategies and potentially earn performance fees.

User-friendly experience

Advanced execution, real-time analytics, and seamless automation on both desktop and mobile.

How it works

Sign up as a strategy provider

- Trade as you normally would on Deriv cTrader.
- Your moves are replicated in real-time for your followers.

Trade smarter

- Enjoy enhanced execution without complicated setups or hidden fees.
- Access comprehensive analytics that helps you improve your performance.

Grow your influence & earnings

- Gain followers by sharing your proven strategies.
- Earn performance fees as you build your reputation in the trading community.

Additional info

Advanced Features: Benefit from top-tier tools designed to boost transparency, performance, and automation.
